Workshop: Future IQ Report on Wayzata 2040 Community Vision

Update

David Beurle and Juliana Panetta of Future IQ will be in attendance to go over the attached draft report, which lays the ground work for the next phase of the Comprehensive Plan Update process---updating the technical components of the Plan.

Background

During the summer of 2017, the City Council hired Future IQ to conduct a comprehensive community engagement process that would ultimately provide the vision and foundation for the update to the City's Comprehensive Plan, which the Met Council is requiring all of seven-county area communities to do by no later than December 31, 2018.

Please see Page 7 of the report which highlights the process over the last six months. The City chose to invest more in the engagement phase of the process in order to better grasp influences and trends of the region, country, World and to provide for more feedback opportunities.

Conclusion

The intent of this meeting will be to go over the report in a more informal environment prior to the summarized presentation at the regular Council Meeting. Because this is a draft, any additional feedback received at the meeting can be incorporated into the final copy.
