Subtotal \$ _____	

## TOTALS

1 Total of costs listed above	\$ _____
2 Multiply	x 1.5
3 Total required financial security	\$ _____

## LAND DISTURBANCE PERMIT - FINANCIAL SECURITY WORKSHEET NOTES

- 1 Generally. The City will require financial security in such form and amounts as deemed necessary to ensure that the work, if not completed in accordance with the reviewed plans and specifications, will be corrected to eliminate conditions posing a danger to public health, safety and welfare, adjacent property and the environment. The security shall be in the form of a surety bond, cash bond, or an irrevocable letter of credit. The financial security must be in place prior to any work. The amount of financial security required shall be equal to 1½ times the estimated cost for erosion control, and related items, including administrative costs, based on the work detailed in the plans and specifications. The City may require a portion of the security to be provided as a cash escrow based on the proposed work.
- 2 Action against Financial Security. The City may act against the financial security, if any of the following conditions exist. The City shall use funds from this security to finance any corrective or remedial work undertaken by the City or a contractor under contract with the City and to reimburse the City for all direct cost incurred in the process of remedial work including, but not limited to, staff time and legal fees.
  - a. The applicant ceases land disturbing activities and abandons the work site prior to the completion of the City approved plans and specifications.
  - b. The applicant fails to conform to any City approved plans and specifications, or related supplementary instructions including permit conditions of approval and corrective action notices.
  - c. Emergency action for circumstances that exists such that noncompliance with this Chapter poses an immediate danger to public health, safety and welfare, or the environment as determined by the City. The City will take every reasonable action possible to contact and direct the applicant to take any necessary action, prior to the City taking action.
- 3 Reduction of Financial Security. If requested by the applicant, the amount of the financial security may be reduced by the City. Said reduction will be based upon the extent to which the grading and restoration have been completed and shall consider the continued need for erosion control. At no time prior to final completion, as defined in section 409.16, shall the security be reduced to less than ten percent of the total original security amount.
- 4 Final Release of Financial Security. Any unspent amount of the financial security deposited with the City for faithful performance of the plans and specifications and any related remedial work will be released after the completion and inspection of all such measures and the establishment of final stabilization, as defined in section 409.03, for the permitted site or common plan of development or sale.
- 5 Land Disturbance Requirements. See the "Land Disturbance Requirements" for the comprehensive list of permit requirements, including plan submittal requirements, plan implementation requirements, asbuilt submittal requirements, and permit closeout procedures.
- 6 City of Wayzata Land Disturbance Ordinance. See Chapter 409 of the Wayzata City Code for the complete Land Disturbance Ordinance, including financial security requirements. The Wayzata City Code can be found on-line at:
