

# Wayzata Boulevard Corridor Study

## Walking Audit

As you walk along Wayzata Boulevard, we want to understand what opportunities or concerns you see that should be considered, analyzed, or addressed within the corridor study. Take this opportunity to recognize safety issues, opportunities for redevelopment, or elements that should be preserved/enhanced along the corridor. You can record your thoughts in two ways:

### Make a note on the map:

Utilize the map on the reverse side of this form to identify the location of your concerns and opportunities and provide a brief description in the table below. As noted in the next pages, use a **number to identify an opportunity** and a **letter to identify a concern** on the map. You can also identify **elements of the corridor that are working well**.

### Take a photo:

Utilize your cell phone to take photos along the corridor. Utilize your phones tagging features to add a comment or include a hashtag to tag it to one of the plan themes. Then share your photos in our shared google drive: <https://photos.app.goo.gl/CWjfoTUUuWhYNfEK7>

We are specifically looking to understand the opportunities and concerns related to four topic areas. As you identify elements of Wayzata Boulevard, add a check mark to the table if it aligns with any of the following topics or use a hashtag with your photos.

### LAND USE

Redevelopment, new development, building materials, sense of place.

#Infill  
#Redevelopment  
#Mixed Use

### MOBILITY

Travel around by walking, rolling, bicycling, driving, and freight, as well as parking.

#Congestion  
#SidewalkGap  
#Access

### PUBLIC REALM & STREETScape

Pedestrian realm, lighting, landscaping, signage, wayfinding, public art, etc.

#Enhance  
#CurrentExample  
#Gateway

### ROADWAY SAFETY

Opportunities for the safe movement of goods and people throughout the corridor.
