

Minor Residential Plumbing Work Exempt from Permitting

The City of Wayzata will not require permits, testing and inspection for plumbing fixture replacements of water closets, sink faucets, dishwashers, refrigerators and similar appliances that do not alter the plumbing piping systems as outlined in numbers 1 through 6 of this policy.

Work Exempt:

1. The reconnection of an existing water supply lines to the replacement appliance (dishwasher, refrigerator, wash machine) that does not involve the replacement or alteration to the existing water supply line.
2. Replacement of the internal working components of existing water closets, faucets and valves.
3. Replacement of sink faucets when the work does not include alterations to the existing plumbing piping system.
4. Replacement or resetting of water closet when the work does not include alteration to the existing plumbing piping system.
5. Replacement of sump pump when the work does not include alterations to the existing plumbing piping system.
6. Replacement of disposal when the work does not include alterations to the existing plumbing piping system.
